NEREID Mid-term roadmap is available!

2017/09/11

Leuven, September 11, 2017: The NEREID project is proud to announce the in-line availability of the mid-term Version of the NEREID's **"NanoElectronics Roadmap for Europe"**. It is introduced to the public during the Sinano-NEREID workshop at the ESSDERC/ESSCIRC Conference and **available on-line here** ^[1]. Published to open the stage for the feedback of the nanoelectronics community it shows how the roadmap has evolved up to now. As a mid-term version is not a final one the project partners appreciate the feedback of all the experts in nanoelectronics in Europe and all over the world.

The NEREID project (ICT-CSA-685559) is supported within the Research and Innovation Programme **Horizon 2020** by the **EU**.
